

Workplace giving

You can help us make our next discovery

The Menzies Institute for Medical Research (Menzies) is an Institute of the University of Tasmania.

Our 270 strong research team exists to perform internationally significant medical research leading to healthier, longer and better lives for Tasmanians.

Research at Menzies is focused in five 'key themes'

- Public Health and Primary Care
- Neurodegenerative Diseases / Brain Injury
- Cardio-Metabolic Health and Diseases
- Musculoskeletal Health and Diseases
- Cancer, Genetics and Immunology

The diseases that our researchers are working on include: arthritis, blood pressure, brain injury, cancer, cardiovascular disease, dementia (including Alzheimer's disease), diabetes, glaucoma, mental health issues, motor neurone disease, multiple sclerosis, osteoporosis and Parkinson's disease.

Our ultimate goal is to cure or prevent disease and to save lives.

Medical research is a long process. It takes time and commitment, but also significant resources. Without your support in donations some research simply would not happen. When you donate to Menzies you are able to specify the particular research area to which you would like to contribute, or you can specify that you would like your donation to go to the area of greatest need.

We are proud to be able to say that every cent donated to Menzies is spent on medical research.

What is Workplace Giving?

Put simply, Workplace Giving allows employees to make regular charitable donations from their pre-tax pay through their employer's payroll system.

It's Collaborative

Workplace Giving is unique in its ability to bring together employees, employers and the charities they choose to support. When employees and employers combine their donations, Workplace Giving is living proof that small change can make a big difference and deliver significant benefits to the community.

It's Convenient

Workplace Giving eliminates the need for employees to collect receipts or wait until the end of the year to claim a tax refund.

It's Cost Effective

Giving from pre-tax income means donations cost employees less, while charities like Menzies receive the full benefit of their donation.

Employer benefits

- Build your business reputation and profile within the community
- Be seen as an 'employer of choice'
- Demonstrate your community spirit
- Contribute to staff morale and loyalty
- Build a close and mutually beneficial relationship with Menzies
- Public recognition for your support
- Costs very little to establish and maintain

Your business and employees can get involved in complementary ways of giving through the workplace, e.g., employer donation matching, volunteering, sharing skill/expertise, workplace fund-raising.
