## 1 | Design

- ❖ Discuss project with TDLU
- ❖ Request a [quote](#)
- ❖ If project is technically feasible, TDLU will provide a Data linkage feasibility letter and a [Data linkage diagram](#)
- ❖ Supply draft ethics application for feedback
- ❖ Complete [data variable lists](#)

## 3 | Approvals

- ❖ HREC application and approval uploaded to TDLU [online](#)
- ❖ TDLU seeks data custodian approvals
- ❖ Researchers to sign and upload:
  - [Deed of Confidentiality and Compliance](#)
  - [TDLU Security Checklist](#)
  - [Researcher Agreement](#) (PI only)
- ❖ TDLU provides final approval

## 5 | Data Provision

- ❖ Researcher receives researchable datasets from data custodians
- ❖ TDLU issues invoice to researcher
- ❖ Researcher provides research papers and publications to the TDLU per the
- ❖ [Researcher Terms and Conditions](#)

## 2 | Apply

- ❖ Apply to the TDLU [online](#)
- ❖ Submit an ethics application to the [Tasmanian HREC](#)
- ❖ Ensure the same information is supplied in both applications:
  - Requested datasets
  - Date ranges of datasets
  - Data variable lists
  - List of researchers

## 4 | Data Linkage

- ❖ TDLU negotiates the supply of data for linkage (if required)
- ❖ TDLU conducts data linkage
- ❖ TDLU creates PPIDs and provides to data custodians
- ❖ Data custodians attach approved data variables to PPIDs
